

AEGISNEXIUM LLC

TECHNOLOGY INFRASTRUCTURE &
LIFECYCLE SOLUTIONS

CAPABILITY STATEMENT

Technology Services | Government & Commercial Markets

contact@aegisnexium.com | 610-757-0020

www.aegisnexium.com | Levittown, Pennsylvania 19057

AegisNexium LLC delivers practical technology solutions that strengthen infrastructure, security, asset lifecycle governance, resilience, and operational performance.

CORE COMPETENCIES

- Cloud & Infrastructure Engineering - architecture, migration support, administration, optimization, and operational reliability.
- Cybersecurity & Compliance Support - security hardening, risk reduction, access controls, documentation, and readiness support.
- Systems Integration & Automation - workflow automation, platform integration, scripting, and repeatable operational processes.
- IT Operations & Service Management - monitoring, incident response, troubleshooting, lifecycle support, and service improvement.
- Technical Consulting & Training - assessments, roadmaps, knowledge transfer, computer training, and project support.
- IT Asset Disposition (ITAD) Management - inventory, lifecycle planning, chain-of-custody coordination, redeployment, and disposition through qualified downstream providers.

DIFFERENTIATORS

- Founder-led delivery backed by approximately 15 years of key-personnel technology experience.
- Hands-on expertise spanning cloud operations, infrastructure engineering, system reliability, automation, and technical troubleshooting.
- Lean, responsive operating model with direct accountability, clear communication, and disciplined execution.
- Solutions designed around security, maintainability, resilience, and measurable customer objectives.

KEY PERSONNEL EXPERIENCE

Abdoulaye Apithy, Founder & Managing Member

Approximately 15 years of professional experience supporting and improving secure, scalable technology environments. Experience includes infrastructure engineering, cloud operations, reliability, automation, risk reduction, and cross-functional technical delivery.
